

Competitor Information for Kelly Marks Indoor TREC and BUFF Headwear Winter League at Onley

In order to keep the competition running to time and ensure all competitors have the same amount of time to complete their rounds we will be blowing a whistle to signal to the competitor that they must start within 30 seconds or will incur time penalties.

The whistle will be blown again when the time allowed has elapsed and the competitor must immediately exit the arena. Their scores up to that time will be counted but they will not be allowed to continue the course.

This competition will be run under BHS TREC rules and if you are unsure about any of the rules, such as the use of martingales or scoring of the obstacles, please ask an official or experienced competitor well in advance of your round.

The course will include non-standard obstacles so please refer to the information available at the venue before your round.

We are pleased that the BHS will be bringing their weighbridge and will be available to discuss your horse's condition and any other nutritional queries you have.

The in-hand class will not include the control of paces. In the event that there are equal scores, the fastest round will win.

Good luck and we hope you enjoy the day.
